- 53-5226 URSA STRAPS URSA TAPE ROLL 100 x 15cm, moleskin, hypoallergenic, chroma blue (single roll)

The URSA Tape Roll is manufactured from moleskin applied to hypoallergenic sticky tape. Intended for applications that include camouflaging microphones and taping down microphone cables to the body, the strips are also good at reducing clothing rustle. The tape can be cut, (but not torn), to suit a particular application for example, cutting a large oval shape to tape down and camouflage a DPA Concealer. Given the size of the roll, the tape can be cut for additional applications such as preparing props as can be seen in the photographs above. Black URSA Tape Soft Strips are Jet Black to hide perfectly in shadows and has a woven fabric effect to help blend with knitted fabrics.

Tape roll dimensions: 1000mm x 150mm
